How Can We Better Coordinate our Ongoing Upland & In-water Work? (EPA/DEQ).....40 min

- Does EPA think they understand where DEQ/RPs currently are & where we're going in the short term with upland SC at the 4 sites?
 - Does EPA (particularly Rene, Kristine, & Sean) think they are getting the information they need to stay up to speed at the 4 sites?
 - With the information presented in today's mtg..., we should better understand where DEQ is on upland SC & CU..., & where EPA is on in-water EA & CU. What's less clear is the longer-range vision of upland SC/CU & in-water EA/CU.
 - With the information presented in today's mtg..., we can better see what elements may be missing from..., & how best to coordinate on the total comprehensive investigation/CU work needed at the 4 sites.
 - With the information presented in today's mtg..., we can develop a roadmap or plan for a coordinated approach.
- Proposed Next Steps
- 1) Before next Doane Lk Area mtg:
 - DEQ- submit an overall strategy (including anticipated general actions)/schedule for upland SC & CU for the 4 sites to EPA.
 - EPA- submit an overall strategy (including anticipated general actions)/schedule for in-water EA & CU for the 4 sites to DEQ

2) DEQ/EPA Doane Lk Area mtg in early fall '09 focusing on:

- Reaching agreement with DEQ's overall strategy/schedule & EPA's overall strategy/schedule.
- Identifying what may be missing from DEQ's upland work &/or EPA's in-water strategy & what may be missing from overall work.
- Develop a roadmap or plan for a coordinated approach.
